

# Activities for Sight Words

1. Make flashcards and practice.
2. Play Tic-Tac-Toe with sight words.
3. Use the game board and flashcards. Player 1 reads the card and moves one space for each letter. Example – move 3 spaces for the word “n-o-t”. Be sure to practice spelling the words while moving. Continue with the next player. The player who gets to the end first wins the game.
4. Beat My Time – Use the flashcards or a sight word list. See how many words you can read in 1 minute. Try to improve the number of words each round.
